

ISTITUTO
ITALIANO DI
TECNOLOGIA

are pleased to invite you to the

WORKSHOP

“Energy Day@IIT: a Graphene Flagship Event”

April 18th, 2018

*“Enhance cooperation between top research Institutes
and Industry with a special focus on Energy Storage”*

MORNING SESSION >>>

09:30-10:00 **Registration**

10:00-10:30 **Welcome, Keynote Speech**

10:30-11:30 **A set of 10-minutes introductory presentations for the core topics of the event**

11:30-13:00 **Main Workshop activities: preset Working Groups and cross-fertilization**

13.00-13:15 **Q&A**

13:15-14:15 **Lunch and networking session**

AFTERNOON SESSION >>>

14.15-15:15 **Plenary: wrap-up by the Working Groups Coordinators**

15:15-16:00 **Roundtable and conclusions (Promoters and High Profile Experts)**

16.00 **End of the workshop**

LOCATION:

IIT Headquarters - via Morego, 30 16163 Genova, Italy

A

GRAPHENE FLAGSHIP EVENT

Workshop background

“Enhance cooperation between top Research Institutes and Industry with a special focus on Energy Storage”.

Keeping into account the global major initiatives, IIT and Ticass invite you to a full day workshop aiming at bringing together Research, Industry, Public Decision Makers, End-users, to share information and discuss Road Maps overlapping and fringe innovation in the domain of Energy Storage. As a matter of fact, a more rational usage of renewable energy must make use of more efficient, sustainable, affordable storage systems capable of ensuring supply continuity as needed. Batteries in a prominent way. The Workshop is designed in order to produce a picture of the State of the Art in R&D in the related domains, and prospective activities and market needs in the short to medium period. From drones to Ports and industrial scale applications, to automotive and regulators, to producers, top experts and smart moderators will be at your side to help you bringing home valuable information and making the best out of the event. A Graphene Roadmap for Energy, Circular Economy approaches for Storage devices, Enterprises, SMEs and Startups needs, feedbacks from the local economic tissue are only a bunch of the topics that will be discussed throughout the Workshop, that will be managed by invitation in order to tailor as much as possible activities and discussion on the participants interest.

For organization purposes, we kindly ask you to confirm your participation

How to reach IIT

The Graphene Flagship is a Future and Emerging Technology Flagship by the European Commission. With a budget of €1 billion, the Graphene Flagship represent a new form of joint, coordinated research on an unprecedented scale, forming Europe's biggest ever research initiative. The Graphene Flagship is tasked with bringing together academic and industrial researchers to take graphene from the realm of academic laboratories into European society in the space of 10 years, thus generating economic growth, new jobs and new opportunities. The core consortium consists of over 150 academic and industrial research groups in 23 countries. In addition, the project has a growing number of associated members that will be incorporated in the scientific and technological work packages from the Horizon 2020 phase (1 April 2016 - 31 March 2018).
